

## ARE YOU READY FOR ICD-10 CODING?

### Crowder College ICD-10-CM/PCS community education!

#### **Who Should Attend?**

This program is intended for current Medical Coding Professionals. Knowledge of health record content review, coding process, human anatomy and physiology as well as pathophysiology and pharmacology is required.

#### **What is the Course Format?**

This is a “hybrid program” consisting of face-to-face on-campus hours and includes assignments and activities available online through CourseSites. This is not a program for college credit. This is a 12-week program with 24 contact hours.

**FEBRUARY: 1, 8, 15, 22 – Time: 8:00 – 10:00 am (8 contact hours)**

#### **Medical Terminology and Anatomy for ICD-10-CM/PCS Medical Coders**

This is a refresher course on medical terminology and human anatomy for the ICD-10-CM/PCS medical coder. This course helps prepare the student to code accurately and effectively using the ICD-10-CM/PCS code set. Carefully sequenced medical terminology lessons will help the student understand the vastly increased anatomy necessary for accurate coding, including the locations of hundreds of arteries, muscles, nerves and other anatomy. Online portion of the course will consist of quizzes, games and exams to enhancing the classroom learning.

**COST: \$50**

**MARCH: 1, 8, 22, 29 – Time: 8:00 – 10:00 am (8 contact hours)**

#### **ICD-10-CM Training for the Medical Coder**

This course is for experienced medical coders wanting to learn how to use the ICD-10-CM coding system. This course is designed to build your knowledge of ICD-10-CM by learning the coding guidelines and conventions. It will include coding exercises with an emphasis on all aspects of the coding classification system to allow students to apply their knowledge of coding principles and definitions. Course will use the AHIMA ICD-10-CM Coder Training Manual 2014. Online portion of the course will consist of coding exercises and quizzes.

**COST: \$75**

**APRIL: 5, 12, 19, 26 – Time: 8:00 – 10:00 am (8 contact hours)**

#### **ICD-10-PCS Training for the Medical Coder**

This course is for experienced medical coders wanting to learn how to use the ICD-10-PCS coding system. This course is designed to build your knowledge of ICD-10-PCS by learning the coding guidelines and conventions. It will include coding exercises with an emphasis on all aspects of the coding classification system to allow students to apply their knowledge of coding principles and definitions. Course will include education on root operations which are used in determining ICD-10-PCS codes. Course will use the AHIMA ICD-10-PSC Coder Training Manual 2014. Online portion of the course will consist of coding exercises and quizzes.

**COST: \$75**

#### **Seating is limited so register now!**

Books and manuals are at the expense of the student and a list will be provided with registration.
